"Modern Mums....

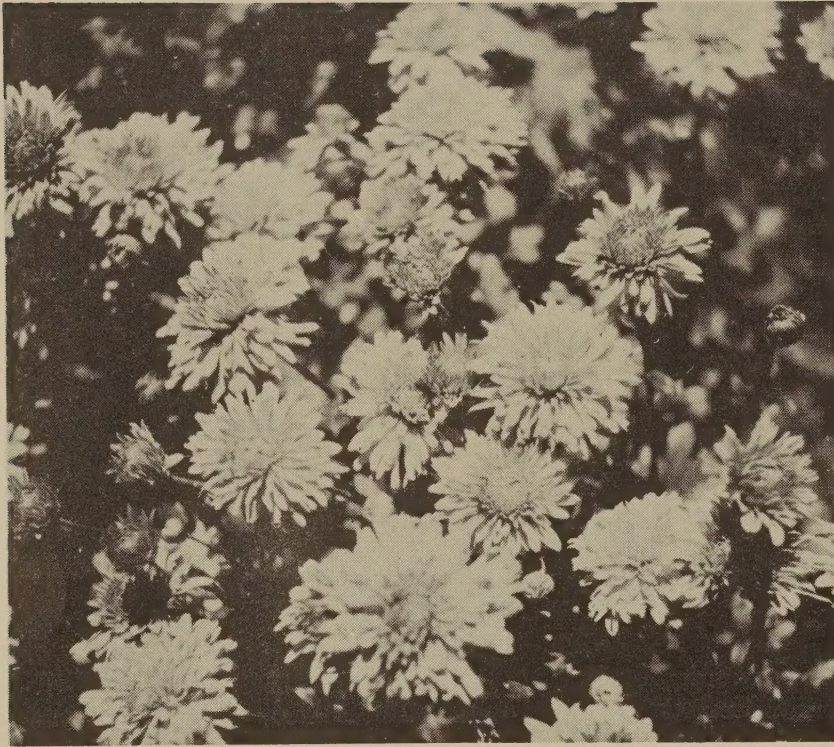

Osceola, University of Nebraska 1951

....for 1952"

White Cloud, University of Nebraska 1951

*Leshara, University
of Nebraska '52*

To Our Many Friends and Customers

We take much pleasure in presenting our newest listing of garden Chrysanthemums. Since the start of our mail order operations we have titled our lists "MODERN MUMS." This, we feel, is not an idle statement for last year in addition to growing many new sorts in our trials here, our unending search for the best new varieties caused us to travel over 5000 miles.

Once again the headliners in our offerings are the University of Nebraska varieties. Reports from many parts of the country have substantiated our statements about last year's introductions. We feel confident that the 1952 introductions will prove equally fine wherever they are grown. In addition to the Nebraska varieties we again offer the finest new ones from other leading hybridizers.

We sincerely wish to thank our many loyal customers for their continuing patronage. In appreciation, despite higher costs we are "holding the line" on prices to you. This year's introductions are priced no higher than newcomers in the past while earlier introductions again are reduced in price.

Yours for a successful gardening season,
Jim, Dave and Bob Fleming

— 1952 Introduction —

UNIVERSITY OF NEBRASKA

- ARAPAHOE** - Huge flowers, 3-5" in diameter without disbudding are produced in clusters of 3-5 flowers on long stems from bushy 36" plants. The color is a rich red shade with reddish bronze reverse. The petals are long and strap-like with a slight waviness which gives the flowers a pleasing informal character. Very frost tolerant- withstands temperatures as low as 25° without significant damage. September 15th. .75 each.
- LESHARA** - Heavily branched husky 30" plants covered with sprays of five to twenty-five 2-3" flowers from early Sept. on. The color is a very pleasing one, being mulberry red on opening, shading on age to a softer red with old rose overtones. The second color phase is a very lovely one which is especially liked by the ladies. Extremely frost tolerant. Fine for cutting. Pictured inside front cover. .75 each.

BRISTOL NURSERIES

- ALEX CUMMING** - A superb new variety from the last batch of seedlings produced by the late great hybridizer. Four inch incurved flowers of pure cerise softening to a pleasing rose shade on age. Oct. 1 \$1.00 each.
- SPINDRIFT** - Lovely double three inch flowers of white with creamy centers. Petals have a suggestion of cactus-like character. \$1.00 each.

DE PETRIS, INC.

- AVALON** - Formal pompon of a glowing bronze color. Resembles Mrs Chiang Kai Shek but with better growth habit. October 1st. .75 each.
- BRIGADIER** - Large carmine red pompon. Good bushy plants, excellent dark green foliage, strong 24" stems for cutting. Oct. 1st. .75 each.
- ENTERPRISE** - Rich amaranth pink solid pompons on medium tall plants. Well suited for cutting. October 1st. .75 each.
- MOONLIGHT** - Vivid soft yellow formal decorative three inch flowers. Nicely shaped medium tall plants. Sept. 15th. .75 each.
- *****
- * One each of the above four, a \$3.00 value for \$2.60 *
- *****

FLORALANE NURSERIES

- PEACH QUEEN** - Large fully double decorative four inch flowers. Color if a lovely peach pink which deepens towards the center. Sturdy 30" plants, blooming in late Sept. .75 each.

DR. E.J. KRAUS

The two varieties below are the first of Dr. Kraus's seedlings from his new breeding program at Oregon State College.

GOLDEHART - Large globular incurved flowers 4" in diameter of light primrose yellow when young. As flowers age the outer portions become white while centers remain yellow. Compact plants. Late Sept. .75 each.

MALINDA BROWN - Fully double four inch flowers of globular form. Petals remain twisted even when flower is old. Color is a pleasing shade of lavender rose. Compact plants. Late Sept. .75 each.

+ **THREE NEW GIANTS** - Arapahoe, Peach Queen & Gold Heart for \$2.00 +

LEHMAN GARDENS

BLUSHWHITE - A superior new spoon run with blossoms of chalk white, overlaid soft lavender. Spoons & tubes of equal length. .75 each.

GOLD SPOON - Large flowers of soft golden yellow shading to arolin yellow. Tubes and spoons of same color. Late Sept. .75=eachj>

PUMPKIN SPOON - A most unique color. Flowers open Persimmon orange and age to safford yellow. Fine late Sept. cut flower. .75=each.

+ One of each of new spoons above, for \$2.00 +

CANADIAN GIANTS

A new group of large flowered sorts recently developed by A.F.

Emberly which did well in Nebraska last year.

GORGEOUS - Large pink flowers of fine quality with good petal texture. Strong stiff stems, 30" plants. Early Oct. .60 each.

JULIET - Large rosy pink flowers with slightly incurving center petals. Erect plants. early october flowering. .60 each.

ROSE 'O DAY - Compact plants covered with medium large bright rose pink flowers. Mid to late Sept. 1.00 each.

PRIMROSE QUEEN - Exceptionally large, 4-5" ball shaped flowers of glistening primrose yellow. Early October. .75 each.

SEPTEMBER CHARM - Medium sized flowers of a bright, unfading salmon pink. Compact plants. Mid to late Sept. .60 each.

THE SWAN - Huge white flowers made up of petals which are spoon-like and spiky on opening, later becoming broader. A very striking and unusual variety. Upright 30" plants. Early Oct. .75 each.

— Uni. of Nebr. Mums —

- CODY - This variety is generally conceded to be one of the finest cushion mums existant. Flat topped 10-12" plants up to 40" across are loaded with two inch flowers from mid-July on. The color varies from swan white with rosy lavender edges in hot weather to a glistening violet in cool weather. The best summer flowering cushion. .50 each.
- E.H. HOPPERT - The finest large flowered summer mum. Flowers are of an unusual form with long strap-like petals which are prefectly whorled in the center. First blooms in July are light yellow while later flowers take on buff and bronze hues. Flowers 3-5" in diameter. .50 each.
- OSCEOLA (1951) Long stemmed three inch flowers of bright yellow during early blooming season which take on coppery overtones with the approach of cool weather. A mass of color from mid-August on. .60 each.
- PEARL PARKINSON - Large flowers with loosly whorled and twisted petals. Color varies from yellow with red flecks in early August to red with golden bronze reflections in cool weather. .50 each.
- PONCA - Attractive sprays of reddish purple flowers which resemble Ponpon Zinnias in form. A fine cut flower. Mid Sept. .50 each.
- SANTEE - Sprays of 2" double golden yellow flowers from mid-August on. Very frost tolerant, A fine cut flower. .50 each.
- TECUMSEH (1951) A superior cushion mum. Compact 12-15" mounds covered with two inch flowers. Color is an attractive erythrite red which shades to buff bronze with pinkish tones in hot weather. A real favorite with our visitors last year. Early August on. .60 each.
- W.P.SNYDER - One of the finest garden mums and certainly one of the most brightly colored. Clusters of tightly double 2-3" flowers of bright coppery apricot. Very frost tolerant. Early Sept. .50 each.
- WHITE CLOUD -(1951) The finest early white garden mum in all respects. Fully double 3-5" flowers of pure white on outside while inner petals and buds show creamy tints. A local mum fancier produced 6 to 7 inch flowers on 40" stems by disbudding to 6 to 8 single flowered stens per plant. Withstands 29° temperatures without damage. Mid August. on. Pictured on cover. .60 each.
